

Call for Nominations for the Board of Directors

Tourism Squamish is the non-profit, member-based destination marketing and management organization representing Squamish. Formed in 2008 - Tourism Squamish is responsible for promoting Squamish as a world-class, four-season destination. We work collaboratively with our industry partners to foster and support remarkable visitor experiences while also focusing on destination development and visitor management to protect and preserve our natural and cultural assets. We provide industry leadership and create awareness within our community of the value of tourism and ultimately have a goal of increasing overnight visitation.

We represent more than 100 members who own, manage, and operate tourism-based businesses in the Squamish area including hotels, restaurants, activity operators, attractions, and retail shops. Twelve elected individuals represent the various sector interests on the Board of Directors.
