

#NOTRACE CAMPING

- Local fire bans restrict the use of campfires. Check squamish.ca for the latest info.
- Leaving food unsecured will attract bears and other wild animals. This is dangerous for you, and puts the bears at risk once they become garbage bears. Never keep or consume food in your tent.
- Garbage/recycling must always be secured and disposed of properly. See the list of resources for drop-off locations.
- Ensure proper disposal of human waste and toilet paper. No one wants to encounter it while walking with kids or dogs. Please don't pollute our waterways.
- Before leaving, return your site to the condition in which you found it.
- Be respectful to your neighbours – we live here and take great care of our community.

THE FINE PRINT

Unauthorized camping and related activities within the District of Squamish are addressed in the following municipal bylaws: Zoning, Park Use, Fire Service, Wildlife Attractant and Traffic Bylaws. Unauthorized camping includes but is not limited to: vehicle, tent, RV, temporary shelter in zones that do not permit this activity.

Natural Resource Officers from the Ministry of Forests, Lands, Natural Resource Operations and Rural Development also enforce provincial natural resource legislation such as the Land Act and the Wildfire Act, where applicable.

Camp in a DESIGNATED CAMPGROUND

The popularity of Squamish within the #vanlife community has increased to the point where there is great concern about the group's collective environmental impact.

"Wild" or "Freedom" camping has become unmanageable environmentally because of the high numbers of campers.

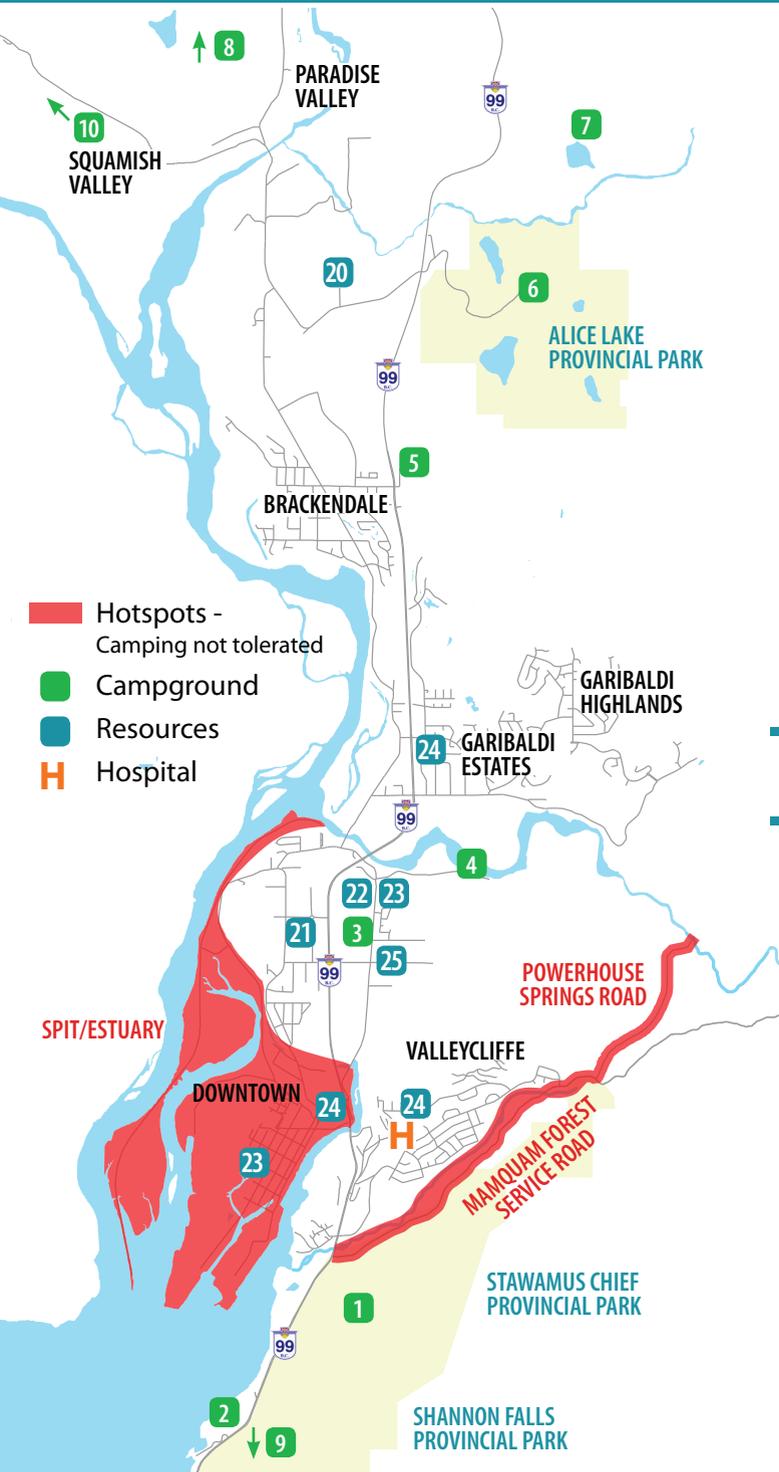

DO NOT CAMP IN THE FOLLOWING HOTSPOTS

- Spit Road - Squamish Estuary/Wildlife Management Area
- Downtown Squamish
- Mamquam Forest Service Road/Powerhouse Springs Road
- Any residential area
